## Three From Elba Make Enterprise Dean's List

Three young women from Elba have been named to the dean's list at Enterprise State Junior College for the quarter which ended March 19.

They are Mrs. Linda Conn Wilson, Rebecca English, and Mrs. Wanda Kidd Bowers.

For Mrs. Wilson, a sophomore, this is the second time on the list of outstanding students. She is majoring in business administration.

Miss English has completed three quarters at the junior college and has been named to the dean's list every quarter. The daughter of Mr. and Mrs. D. M. English, she is majoring in home economics.

Mrs. Bowers is the daughter of Mr. and Mrs. Cecil R. Kidd. She is a freshman and plans to major in elementary education.

The names of four students from New Brockton also appear on the list. They are Cheryl Huffstickler, a first semester freshman who got off on an exceptionally good start at the junior college; Mack

## Brewer Calls Session

Governor Albert Brewer announced Monday that there would be a special session of the Alabama legislature to raise new tax revenue for the schools. It will begin on April 1st with statewide television coverage at the evening session, which will be the first session.

## Football Jamboree Set In Opp Friday

There will be a football jamboree in Opp this Friday night. The Elba Tigers will be playing in the first and last quarters. They will meet Andalusia and Monroeville.

The Elba Tigers will be using an entirely different offense from the one used during the last two years. Football fans are urged to turn out and see how the local team measures up against several others.

LITTLE MISS ELBA will be selected tonight (Thursday) at the Elba High School. The event, sponsored by the Lions Club, will begin at 7:30 p.m. These thirty young ladies will be making the first of many trips across the stage before the public. The public

is urged to come out and support your friend's and neighbor's youngsters as they brave the elements to vie for "Little Miss Elba." Proceeds go to the Lions Club project of air conditioning the Elba High School auditorium.

## Coffee County Receives County To \$150,000 Housing Grant Furnish 12 April Draftees

On March 20, 1969, Mr. Jackson W. Stokes, Chairman of the Organized Community Action Program's Board of Directors, announced that Coffee County was to receive a fifty thousand dollar (\$50,000) grant for a Low Income Housing Program.

This program operated only in Pike County during 1968, being only in the experimental stage (This is the only program of its kind in the United States). It operates as on-the-job training program, teaching unemployed and unskilled men construction skills by building houses for target area families who qualify for special loans from the Farmers Home Administration. The OCAP furnishes the labor to build these houses, and the F.H.A. loans finance the land, materials, and well construction at a very low rate; repayment over a 33 year period at about \$25

per month.

This program will employ Coffee County residents and will begin operation on June 1, 1969.

More information on this program can be obtained by visiting the local Community Action Program office, located over the Peoples Bank in Elba, Alabama.

## Farmers Have Crop Insurance Deadline

April 10 has been set as the last day farmers can apply for Federal All-Risk Crop Insurance protection on their 1969 cotton crop and the deadline for peanut protection is April 30.

J. R. Lynn, FCIC District Director, announced this week that the April 10 and April 30 deadlines apply to cotton and peanut growers in the Southeast Alabama Counties of Barbour, Coffee, Dale, Geneva, Henry, Houston, Pike and Jackson County Florida.

The Federal Crop Insurance Corporation—an agency of the United States Department of Agriculture—is required by law to stop accepting applications for insurance protection before general planting gets underway.

Although a deadline has been established, interested farmers should not wait until the last minute to check into the program. If unusual risk conditions develop in the area or if planting progresses faster than expected, the Corporation will stop application sign-up without notice to the growers.

With Crop Insurance protection a cotton or peanut grower is guaranteed the return of his growing cost should any natural hazard destroy all or part of his crop.

The district office for the above mentioned counties is located at The Colony, 1915 Montgomery Highway, Dothan, Alabama.

## Stevens Receives Medal For Actions

The Soldier's Medal, the Army's highest award for noncombat heroism, was received recently by Chief Warrant Officer Jacob H. Stevens, husband of the former Joan Bradshaw of Rt. 4, Elba. The medal was presented in ceremonies near Pleiku, Vietnam.

WO Stevens was cited for his actions last October 9 when the helicopter, which he was flying as aircraft commander, crashed and began to burn.

When he realized that two of his crew members were trapped inside the wreckage, WO Stevens immediately entered the ship to attempt to rescue them. Amidst the fire, he ripped at the metal and pulled one man free.

Just then, an artillery shell exploded and stunned him, but he picked up the injured man and carried him to safety. Moments later, a series of explosions completely destroyed the downed aircraft.

WO Stevens is now serving as operations officer in the 17th Aviation Company. He also has received the Purple Heart and 12 awards of the Air Medal.

The warrant officer's mother, Mrs. Ella M. Otis lives at 1250 Helmslock St. Chico, California.

He and his wife have one son, Darren, age 2 months.

CWO JACOB STEVENS

## FIGHTING FISH STUDIED

Aggressive behavior in Siamese fighting fish has been studied by psychologists at the University of Alabama.

## Elba PTA To Meet On April 1st

The monthly meeting of the Elba Parent-Teacher Association will be April 1, 1969, at 7:15 p.m. The April meeting will be held at the elementary cafeteria. The program topic is "An Educational Cruise Through Art Media."

WHERE IS IT? The Azalea Garden Club is sponsoring a clean-up campaign again this year and as part of that campaign they will give a cash prize to the first person identifying this cluttered scene. It can be seen from an often traveled highway in Elba. To claim your prize call the Elba City Hall.

BEEF COOK-OFF WINNERS from each county school participated in the County Cook-Off last Thursday night at Kinross. Winner of the event was Kem Pierce of Kinross (far right). Kem prepared a dish of Spanish Round Steak for the judges. Other contestants were Diane Goodson, left, Elba with Beef Stroganoff; Jetta

Saloom, Enterprise with Mini Vealsteaf; Kathy Winham, New Brockton with Surprise Meatloaf.

Miss Pierce is 16 years old and will represent Coffee County in the state competition later this year. The event is sponsored by the Coffee County CowBelles.

Give thanks in all circumstances—(1 Thess. 5:18).

Problems of humanity can be solved by a thankful, appreciative attitude. A ready word of gratitude always brings a response. All of us like to be appreciated. We all know how we react to appreciation; we know how it makes us feel. It is more and more of a need to be more helpful. Let us let "thank you" be our quick response to every good that appears.

GIRL SCOUT COOKIE SALE is now in progress and will last through April 2nd. As before, the girls are selling four kinds of cookies and the price has not increased at all. Part of the money remains with the local scout troop and part goes to the Girl Scout camp near here. Pictured above are Lou Ellen Fuller, Ginger Wise, Cindy Jacobs, and Margaret Holman.

## Death Claims Mrs. Sanders In Birmingham

Mrs. Julia Lee Sanders officiated. A number of relatives on March 11, 1969 at graveside in Birmingham, Alabama, Mrs. Sanders lived in Birmingham, Alabama, for a number of years. She was the daughter of the late Captain and Mrs. Charles Stephen ("Red") Lee. For a long period of years she was housewife at the S.A.E. House at the University of Alabama. Later she worked at the Student Union Building.

## New York Life Reports 1968 Sales Total

In 1968 New York Life Insurance Company sold \$67,285,106 of life insurance to Alabama residents during 1968, according to New York Life Agent Fred D. Donaldson of Enterprise.

Total life insurance in force with New York Life in Alabama reached a high of \$503,636,323 at the end of last year.

Any more deductions in our take-home pay and some of us won't have a home to take it to—Dale Holdridge, The Langford (S. D.) Buick.

ALL RETURNS PROFESSIONALLY REVIEWED

CONSTRUCTION HAS BEGUN on the new Alabama Baptist Children's Home, Decatur Branch, being built on a fifteen acre site in southeast Decatur. Included in the first construction phase is an administration building, a residence for the superintendent, and two cottages for children. Ray Childs, a Decatur Contractor, submitted a bid of \$242,447 for the four buildings, landscaping, and other site work. His was the lowest of five bids submitted. This construction phase will be completed in late October.

The master plan calls for three additional cottages for children to be built at some future date, whenever funds are available. When the building program is completed, approximately sixty children will be served on the Decatur Campus and this will become the center of operations for all of the Alabama Baptist child care work in North Alabama.

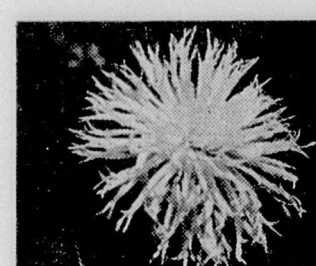

The Decatur Branch will be owned and operated by the Alabama Baptist State Convention and will be under the same Board of Trustees as the Children's Home in Troy and the Group Home in Birmingham.

Approximately seventy five per cent of the financial support for the work of the Children's Home is derived from a cash offering taken in Baptist Churches throughout the state each year. The remainder comes from the Cooperative Program, wills and estates, memorials, and individual contributions.

## An Easy Way To Add More Garden Color: Plant Some "Summer" Bulbs This Spring

The easiest way to add color to a hot weather garden is with Summer-flowering bulbs from Holland. These include dahlias, gladioli, anemones, ranunculus, lilies, and tuberous begonias. Homeowners who have puttered around a garden for a few years are familiar with the beauty of the various flowers from bulbs that grace the Summer garden.

**Plant In Spring**  
As a rule, Summer-flowering bulbs should be planted in the Spring. The first step toward good flowers is to purchase quality bulbs from reliable sources. Bargin bulbs can sometimes give disappointing results. If you buy bulbs that have been imported from Holland, you can be sure you are getting the best.

**Dahlias come in many shapes and sizes.**  
Quality possible and exciting and interesting varieties resulting from years of hybridizing by the world's finest growers.

**DAHLIAS:** With such an infinite variety of shapes, sizes and colors of dahlias, every home owner or gardener is sure to find a favorite among the selection from Holland. Your favorite may be among the tiny pompoms no more than a inch in diameter. Or perhaps your taste is for the shaggy flowers as big as dinner plates.

**GLADIOLI:** Leading all other Summer-flowering bulbs in popularity is the gladiolus. The colors available are countless and they will grow in almost every section of the country. It is safe to plant gladioli outdoors as soon as the soil is warm enough to spade and there is no danger of the soil freezing again. Plant the bulbs about 3 to 5 inches deep and six inches apart. Repeat plantings every two weeks throughout Spring and early Summer for a continuous display of flowers.

**LILIES:** This is truly a hardy Summer-flowering bulb. Lilies can be planted in Fall or Spring, as soon as possible after they are received or purchased. This is especially true in the Spring. Planting depth varies from 5 to 10 inches depending on the type. Lilies like shade for their roots and are particularly benefited by a thick mulch kept in place the year round.

**ANEMONES:** This well-known florists' flower is easily grown in home gardens. Blooms can reach four or more inches across on plants growing up to 15 feet tall. Anemone colors range from purple through blue, red, rose to white. The bulbs should be planted pointed end down. Water the soil well before planting, then do not water too much until the plants are in full growth.

**RANUNCULUS:** A close cousin to the anemone, ranunculus produce many double globe-like flowers of yellow, scarlet, crimson, pink or white. They are most effective as cut flowers. Like anemones, they should be

planted about an inch deep. Plant with the "claws" down and follow the same watering instructions as above.

**TUBEROUS-ROOTED BEGONIAS:** Flowers look almost like roses, carnations or camellias. Plant indoors in boxes filled with damp peat moss. When sprouts are 2 to 3 inches high, transplant to pots. After June 1, pots can be plunged outdoors. Tubers can also be planted outdoors in the garden after June 1.

When people learn to put together you don't have to push them—Bob Pearce, The Danville (Ind.) Gazette.

## WORTH TALKING ABOUT

In our own individual way we can become an effective spokesman—speaking out for our country, telling its success stories, selling its ideals, and merchandising the dynamics of its future capabilities. So to the old question that people have been hiding behind for years—"What can I do?"—I suggest that the answer is "What will I do?" Will I believe in America—will I work for America—will I sell the American ideal? If our answers to these questions are "yes"—if like the man that Thomas Paine envisioned, we demonstrate our willingness to accept our full citizenship responsibilities—we can and will build a new and greater America—a better America for all Americans—a better America for all mankind.

—James H. Binn, President, Armstrong Cork Company

## Annual Eufaula Pilgrimage

All eyes will be on the Barbour County city of Eufaula shortly as that historic and picturesque community again hosts the annual Eufaula Pilgrimage. But this year, the celebration takes on special significance as a part of the state's sequential festival celebration.

Governor Albert Brewer has designated April 10-13 as "Eufaula Pilgrimage Days" throughout the state in inviting Alabama citizens and out of state visitors to visit Eufaula. Highlight of the annual Pilgrimage again this year is the guided tour of nine ante-bellum Eufaula's most magnificent old homes. Regarded as among the finest in the entire South, the homes will be open to the public throughout Pilgrimage Days. Other activities will include museum and art exhibits and a antique store and sale.

Among the mansions to be visited is the famed Shorter Mansion, which has been preserved and restored by the Eufaula Heritage Association. The Mansion, whose history dates back to Civil War days, serves as Pilgrimage headquarters.

The annual Eufaula event has attracted thousands of visitors to the city in recent years. The National Association of Travel Organizations has repeatedly selected the Pilgrimage as one of the top 20 travel events in the United States for the month of April.

"Eufaula is one of Alabama's most beautiful and historic cities," Governor Brewer said in his proclamation. "The Pilgrimage Days, 'As we celebrate our Sesquicentennial this year, I am sure that Alabama citizens and other visitors will find a visit to Eufaula a pleasant reminder of the rich heritage and history of our State."

The city is located on Lake Eufaula, one of the South's most rapidly growing travel and tourist centers. Another annual event in the city is the Lake Eufaula Festival, which features world championship speedboat races on the large lake.

Alabama's science exhibit, now under construction in Huntsville, has been named the "Alabama Space and Rocket Center," in a contest conducted to name the new science oriented exhibit. The contest was held in schools throughout the state and some 1200 student submitted entries.

Three youngsters submitted the winning name: Mark Walley of Montgomery, Phil Green of Gadsden, and Michael Wayne Sanford of Haleyville. The youngsters will be invited to Huntsville to participate in opening ceremonies and tour the U. S. Army Missile Command and NASA - Marshall Space Flight Center as a guest of the Alabama Space and Rocket Center.

The recent emphasis on the nurse shortage has prompted the federal government to release funds for retraining of inactive professional nurses. A state-wide search for these nurses is being launched this week by District #6 of the Alabama State Nurses' Association. If a need for a course in this geographic area is established, funds will be sought under Manpower Development and Training Act. The six-week course is free and in some cases nurses can receive subsistence and transportation allowances. This program is one more attempt to help with the serious shortage of qualified workers in the health field.

Mrs. Sally Nettles, 802 Dusy St., Dothan, Alabama, 36301, R.N., President of District 6, Alabama State Nurses' Association may be contacted for further information and application. It is important for each community to identify its own nurse potential.

## RECIPES WITH GIRL SCOUT COOKIES

**CHOCOLATE CREAM FROSTING CAKE**  
1 cup heavy cream  
1/2 cup instant sweet cocoa mix  
or 1/4 cup cocoa and 1/4 cup sugar

Whip cream mixed with cocoa mix or cocoa and sugar, salt and vanilla, until thick. Spread some of the mixture on each cookie and put them together in a stack on roll, placing them on a platter or refrigerator dish. Frost outside with remaining chocolate cream. Store in refrigerator 8 hours or overnight, then cut in diagonal slices about 1 inch thick. For Michel Roll, add 1 to 2 teaspoons instant coffee to the cream mixture. Serve with chocolate sauce.

A good variation is to use plain sweetened whipped cream and when ready to serve, add a sauce of sliced strawberries.

**MINT ICE CREAM**  
1 quart condensed milk - sweet  
1 quart cream - 2 pints  
12 to 20 Mints - thoroughly chilled to make brittle

Whip cream and add condensed milk, slowly mixing well. Put Mints in a paper bag or between two sheets of heavy oil paper and roll to crumbs. Stir these into the cream and pour into the tray of electric refrigerator. When practically frozen, remove from refrigerator and stir once more.

**DATE AND NUT ROLL**  
Using Butter Flavored Shorties

1 doz. Girl Scout Cookies—broken but not too fine  
1/2 cups chopped dates  
1/4 medium nut—cut up  
1 cup chopped nuts  
1 cup whipped cream

Combine the above—saving 1/2 cup crumbs. Mix well and roll up with 1/2 cup crumbs on the outside. Wrap in waxed paper and put in refrigerator at least 5 hours. Cut in slices and top with whipped cream.

## New Brockton PTA Sponsors Basketball Game

The New Brockton Parent Teachers Organization is sponsoring a Laugh-In Basketball game at the school gym Saturday, March 29 at 7:30. Participants will be parents—town mothers against country mothers and town fathers against country fathers. Among those who will participate as players are: Vassie Gaborik, Denise Walden, Annie Will Waters, Billie Pilgrim, Arlene Danford, Bobby Flowers, Mary Ellen McCormack, Annie Sue Harrison, Eloise Medley, Iola Kelly, Martha Byrd, Gladys McClothern, Faye Grissom, Hazel Burns, Dot Tindol, Peggy Roberts, Dorothy Moore, Lorene Griffin, Paul Ward, Kenneth Walden, Bobby Danford, Felix Sawyer, Austin Kelly, Bobby Byrd, Charles McClothern, Royce Grissom, Cecil Godwin, Don Nixon, Sonny Tindol, Charles Lott and Gaston Hornsby, Jr. Cheerleaders will be Gibbs McCormack, Betty Johnson, Maxine Sawyer, Dor Whitehead, Pat Nixon, Mary Esther Hornsby, Jean Jernigan, Faye Sawyer, Faye Tindol and Amelia Harris.

GOVERNOR ALBERT BREWER received an invitation to attend Eufaula Pilgrimage Days from lovely Martha Moore of Eufaula, one of the hostesses for the four-day annual event. Miss Moore is the niece of Admiral Thomas Moore, Chief of Naval Operations.

## Alabama's Science Exhibit Gets Name

Alabama's science exhibit, now under construction in Huntsville, has been named the "Alabama Space and Rocket Center," in a contest conducted to name the new science oriented exhibit.

The contest was held in schools throughout the state and some 1200 student submitted entries.

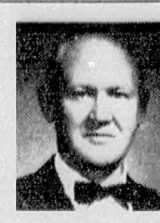

Three youngsters submitted the winning name: Mark Walley of Montgomery, Phil Green of Gadsden, and Michael Wayne Sanford of Haleyville. The youngsters will be invited to Huntsville to participate in opening ceremonies and tour the U. S. Army Missile Command and NASA - Marshall Space Flight Center as a guest of the Alabama Space and Rocket Center.

## Retraining Of Inactive Nurses Planned Locally

The recent emphasis on the nurse shortage has prompted the federal government to release funds for retraining of inactive professional nurses. A state-wide search for these nurses is being launched this week by District #6 of the Alabama State Nurses' Association.

If a need for a course in this geographic area is established, funds will be sought under Manpower Development and Training Act. ## UNIDENTIFIED FOOD SUBSTANCES

As exciting as "who dunnit" is, and a completely interesting as some television "private eye" series may be, it's my opinion that just as much clamor can be present in the detective work now occurring daily in the world's nutrition research laboratories.

We are in fact very probably on the threshold of some of the most exciting findings in the history of modern nutrition research. Earlier in this century we began identifying and realizing the essentiality of vitamins. Now we are on the verge of determining the essentiality of minerals. And we are beginning to learn that minerals need them too. And human needs for iron in the diet are, of course, well known.

More to be identified. Equally, we are on the track of the "unidentified" substances in food that we know are there but researchers must identify. And many clues are coming to the fore. So are new research techniques for finding answers.

Here, however, unknown vitamins, trace minerals, the interactions between various nutrients and their presence in foods in certain balanced amounts, and antioxidant factors are among the unidentified food substances I am talking about. Research techniques and new systems for analyzing data are reported with increasing regularity.

Until we know exactly what it is that we do not know, nutritionists are anxious that people protect themselves from under-nourishment. In other words, be healthy.

Adopt Routine. If you do this routinely, you'll be providing for your good health now. Later scientists can tell you why it was a good idea.

Man's Clues. The next job is to identify exactly what it is that makes the difference. The challenge factors after of today's research is the fact that many clues are coming to the fore. So are new research techniques for finding answers.

Until we know exactly what it is that we do not know, nutritionists are anxious that people protect themselves from under-nourishment. In other words, be healthy.

Adopt Routine. If you do this routinely, you'll be providing for your good health now. Later scientists can tell you why it was a good idea.

Man's Clues. The next job is to identify exactly what it is that makes the difference. The challenge factors after of today's research is the fact that many clues are coming to the fore. So are new research techniques for finding answers.

Here, however, unknown vitamins, trace minerals, the interactions between various nutrients and their presence in foods in certain balanced amounts, and antioxidant factors are among the unidentified food substances I am talking about. Research techniques and new systems for analyzing data are reported with increasing regularity.

## Homemakers Met At Whitman Home

Mrs. J. D. Whitman was hostess to the L. E. Home-

### Magnolia Club Elects New Officers

The Magnolia Garden Club held its March meeting in the home of Mrs. Kilby Johnson with Mrs. M. V. Miles as co-hostess.

Refreshments were served to the nineteen members present.

During the business meeting the officers for the coming year were elected. They are as follows: Pres-

ident, Mrs. R. A. Sewell; Vice President, Mrs. Milton Warr; Secretary, Mrs. Jack Brunson; Treasurer, Mrs. Kilby Johnson; Parliamentarian, Mrs. Willard Martin; Historian, Mrs. Philip Scarbrough.

Mrs. Milton Warr gave a very interesting program on "Preparation and Planting of Azaleas."

The following members were present: Mrs. Olen Bailey, Mrs. Ben Brock, Mrs. Jack Brunson, Mrs. Lister Brunson, Mrs. Mace Cook, Mrs. Douglas East-ers, Mrs. Charles Jacobs, Mrs. Robert Marsh, Mrs. Doug Martin, Mrs. Willard Martin, Mrs. Paul Morrow, Mrs. Winford Padgett, Mrs. Bill Pierce, Mrs. R. Sewell, Mrs. Milton Warr, Mrs. Mack Wise and the hostesses.

Delicious refreshments were served at the close of the meeting.

## HOSPITAL Notes

Persons admitted to the Elba General Hospital during the period of March 18 through March 25 were the following:

Mrs. Albert Dyess, President, presiding and Mrs. Mary Rushing was welcomed as a new member.

The song, "Work For The Night Is Coming" was sung by the group, and Mrs. Whitman gave the devotion. After the allegiance to the flag was given, the roll was called and the minutes of the last two meetings were read by the secretary, Mrs. Price Ringo, and were approved.

A short business session was conducted by the President and notes of appointment from Mrs. Price Ringo and Mrs. J. M. Diston were read by the Secretary, Mrs. Price Ringo, for being remembered white in the hospital recently, were read by the President.

Mrs. J. M. Dismukes assisted by Mrs. Price Ringo, gave an interesting lesson on Police, Grooming and Dress.

The following members were present: Mrs. Albert Bailey, Mrs. Ben Brock, Mrs. Jack Brunson, Mrs. Lister Brunson, Mrs. Mace Cook, Mrs. Douglas East-ers, Mrs. Charles Jacobs, Mrs. Robert Marsh, Mrs. Doug Martin, Mrs. Willard Martin, Mrs. Paul Morrow, Mrs. Winford Padgett, Mrs. Bill Pierce, Mrs. R. Sewell, Mrs. Milton Warr, Mrs. Mack Wise and the hostesses.

Delicious refreshments were served at the close of the meeting.

## Miss Lawford Weds Mr. Adkison

Miss Frances Lawford and Max Adkison were married on March 22 at 5:00 p.m. in the First Assembly of God Church of Elba.

The Rev. J. C. Burks officiated and nuptial music was by Mrs. Nancy Glover.

The bride is the daughter of Mr. and Mrs. Leroy Lawford of Elba, Mr. and Mrs. Alfred Adkison of New Brockton, are the parents of the groom.

Given in marriage by her father, the bride wore a gown of chantilly lace over silk organza. Her silk illusion veil fell from silk organza roses.

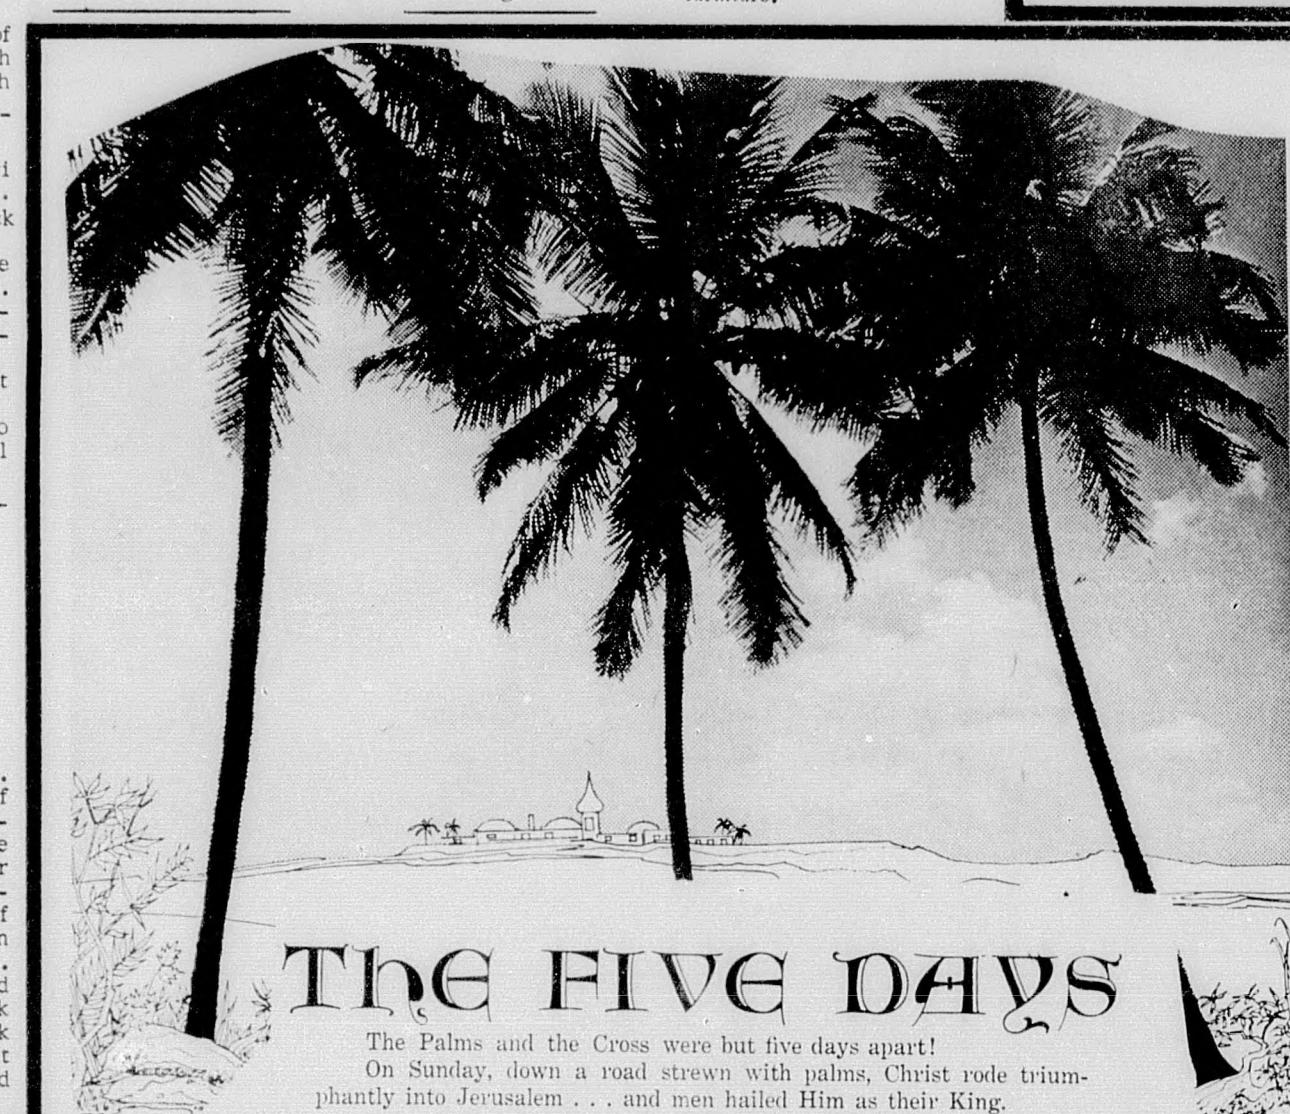

Miss Debra Henson, cousin of the bride, was maid of honor. Bridesmaids were Miss Verla Smith and Miss Edith Marler of Elba.

They wore gowns of orange bonded crepe with matching headpieces. Each carried a white chrysanthemum.

Flower girl was Terri Messick, daughter of Mr. and Mrs. Donald Messick of Enterprise.

Tom Tindol served the groom as best man. Given in marriage by her father, the bride wore a gown of chantilly lace over silk organza. Her silk illusion veil fell from silk organza roses.

After a wedding trip to Florida, the couple will reside in Elba.

## THE FIVE DAYS

The Palms and the Cross were but five days apart! On Sunday, down a road strewn with palms, Christ rode triumphantly into Jerusalem... and men hailed Him as their King.

On Friday He climbed the rugged slope of Calvary... and they nailed Him to a Cross.

How suddenly good turns to evil! How quickly we sometimes lose our vision of God!

The paradox of these five days is history's striking lesson in the importance of a constant faith. The faltering, hot and cold sort of religion made possible the Crucifixion!

Palm Sunday you'll be going to Church. In a quiet moment in the sanctuary remember these five days - resolve to worship EVERY Sunday, and to live your faith EVERY day.

## Manning, Foster Vows Spoken In Elba

Miss Danice Manning and Michael Foster were married at the Elba First Methodist Church on March 21, 1969 at 6 o'clock in the evening. Dr. Thomas S. Harris officiated at the double ring ceremony.

Parents of the bride are Mr. and Mrs. J. R. Manning of Vancouver, Washington, Mr. and Mrs. Leonard L. Foster of Carson, Washington are the parents of the groom.

The couple will make their home at the Elba Motel Apartments while he is serving with the U. S. Army, stationed at Ft. Rucker.

## Services Held March 3rd For Andrew George Jones

Funeral services were held on March 3rd for Andrew George Jones, of Elba, who died at his home on March 1st following a long illness. Jones was born in Covington County on November 9th, 1899. Until the time of his retirement several years ago, Jones served as director of the Elba Housing Authority, during the long illness of his husband and our father.

The kindness and sympathy of neighbors and friends in our recent sorrow will always remain with us a precious memory.

Survivors include his widow, Mrs. Grace B. Jones, two daughters, Mrs. Betty Jones Love, and Mrs. Barbara J. Fortner, Enterprise; three brothers, Percy H. Jones, Mobile,

Our heartfelt thanks and gratitude for all the many acts of kindness extended to my husband and our father.

The kindness and sympathy of neighbors and friends in our recent sorrow will always remain with us a precious memory.

The family of Spencer Ziglar, Enterprise, 3/27/69.

Percy H. Jones, Mobile.

Our heartfelt thanks and gratitude for all the many acts of kindness extended to my husband and our father.

The kindness and sympathy of neighbors and friends in our recent sorrow will always remain with us a precious memory.

The family of Spencer Ziglar, Enterprise, 3/27/69.

Percy H. Jones, Mobile.

Percy H. Jones, Mobile.

## Mrs. M. B. Brunson Hostess To D.A.R.

The John Coffee Chapter of Daughters of American Revolution held its March meeting in the home of Mrs. M. B. Brunson in Enterprise. Mrs. Jerry Brunson and Mrs. S. R. Metcalf, Jr., were joint hostesses.

The regent, Mrs. Baxter Bryan led in the opening ritual and conducted the business. Miss Alla James read the President's General Message. Mrs. W. E. Martin gave the National Defense News.

During the social hour, the hostesses served a dessert course to members and guests. Members present were: Mrs. W. C. Braswell, Mrs. F. H. Brunson, Miss Mabel Branson, Mrs. J. B. Bryan, Mrs. A. C. Dunaway, Miss Lu-nora Farris, Miss Alla James, Mrs. I. D. Ken-

rick, Mrs. W. E. Martin, Mrs. F. H. Rainer, Miss Mollie Belle Sawyer, Mrs. W. O. Warren, Guests were Mrs. Billy Hildreth, Enterprise, Mrs. Jerry Brunson and Mrs. S. R. Metcalf, Jr., were joint hostesses.

## Gleaners Met For Regular Circle

The Gleaners W.M.U. Circle of Westside Baptist Church met for their monthly meeting on March 18, 1969, in the home of Mrs. Clara Ann Dyess for their regular monthly meeting.

The program opened with devotion and prayer by Mrs. Thelma Parrish. Mrs. Linda Rushing led the group in an open discussion on the program, "By Ways and High Ways." Mrs. Agnes Wilson closed the program with prayer.

Present were: Mrs. Agnes Wilson, Mrs. Ruby Nell Mickle, Mrs. Thelma Parrish, Mrs. Doris Val-lory, Mrs. Linda Rushing, the hostess, Mrs. Clara Ann Dyess, and one guest.

Refreshments were served by the hostess and the meeting was adjourned.

## Vidichs Are New Parents Of Baby Boy

Mr. and Mrs. Robert Vidich announce the birth of a son, born March 25, 1969 at 11:25 p.m. at the Elba General Hospital.

Michael Robert weighed in at six pounds and five ounces.

Grandparents are Mr. and Mrs. Bonnie Holad of Elba and Mr. and Mrs. Thomas Vidich of Los Angeles, California.

Our heartfelt thanks and gratitude for all the many acts of kindness extended to my husband and our father.

The kindness and sympathy of neighbors and friends in our recent sorrow will always remain with us a precious memory.

The family of Spencer Ziglar, Enterprise, 3/27/69.

Percy H. Jones, Mobile.

# The ARMY GIRL

First off, many thanks for your response to our initial column. We appreciated the calls, letters and visits from our readers.

## ARMY PAY RAISED AGAIN

Remember when the newly inducted private in the Army made \$21 a month? Most of the World War II veterans will remember that figure since that's what they were paid in the early 1940's. Well, hold your hats, folks, Army pay has been raised again and today's newly inducted private is making \$109.50 a month plus free room and board and free medical and dental care. Promotion opportunities being what they are today, it is possible for this new recruit to be earning as much as \$261.90 a month (plus free room and board) in eight months after he is sworn into service. As one World War II vet recently remarked to us, "The Army isn't what it used to be!"

A LADY GENERAL  
Don't be surprised if you pick up the newspaper and one fine day read soon and read about the Army's first female general. President Johnson signed legislation some months ago making women eligible for general rank. Though we don't have our first female general, I have already volunteered to be her chauffeur.

QUESTION OF THE WEEK  
This is our question of the week. A young man came down to see us and wanted to enlist. "I just received my induction notice from the draft board and would now like to enlist. Can I?" Fortunately, we could say "yes". A man can enlist up until the day he must actually report for induction. If you have a question you would like answered, send it along to us.

FACTS ABOUT THE ARMY  
Did you know that the Army has special programs through which a man who enters service can receive a promotion to sergeant or staff sergeant within eight months after he has enlisted. — That the Purple Heart is the oldest Army medal? It was established by General George Washington in 1782 and was originally known as the Badge of Military Merit.

— That there are approximately 1,549,626 men and women in the Army today? Out of the total, 164,548 are officers and 1,385,042 are enlisted personnel.

## IT'S UP TO YOU

By Howard E. Kershner, L.H.D.

If Communism Took Over America

Dr. Kershner

WHAT would happen to you if Communism should succeed in taking over our country? Well, it would be something like this: You have a nice home, two or three cars, swimming pool and the works. Come the Communist revolution and you lose it. If you are lucky enough to be allowed to live and are not placed in a camp for "re-education," the best you can hope for is that two or three other families will be allowed to share your home. A certain man was interviewed by a Communist, who looked at his splendid home and said: "When we take over, we'll put about four families into your house to enjoy it with you."

You own a good portfolio of stocks, or possibly your own business. Come the Communist revolution and the stocks or the proprietorship will be worthless. You have plenty of insurance so your widow can raise and educate your children. Come the revolution and your insurance will be worthless. You have paid in to your company's retirement fund and expect to enjoy a comfortable retirement. Come the Communist revolution and your retirement fund will be zero. You have established trust funds for your children to make life easier for them than it was for you. Come the Communist revolution and the securities in these trust funds will be worthless. You see, you have provided every kind of insurance except insurance against Communism. You can't buy that with money; it takes "wit, sweat and tears," did it suddenly. It can happen either way. We warned that an unceasing supporter of limited constitutional government and as an opponent of Fabian Socialism. You must study hard to understand how creeping socialism undermines the country and destroys it. You must understand how Communism operates and you must work hard to preserve high moral standards such as truthfulness, honesty, integrity and fairness. You must refrain from coveting and stealing. If you want to live and go to work to learn how to defeat Communism and to preserve your freedom. It will not be easy, but it can be done if you are willing to pay the price.

We have studied conditions in 60 countries and have seen the results of Fabian Socialism in the process of betraying one people after another into the hands of the tyrants. We have seen coups that did it suddenly. It can happen either way. We warned that an unceasing supporter of limited constitutional government and as an opponent of Fabian Socialism. You must study hard to understand how creeping socialism undermines the country and destroys it. You must understand how Communism operates and you must work hard to preserve high moral standards such as truthfulness, honesty, integrity and fairness. You must refrain from coveting and stealing. If you want to live and go to work to learn how to defeat Communism and to preserve your freedom. It will not be easy, but it can be done if you are willing to pay the price.

## Tips from a Pro

Wray Mundy, National Truck Driver of the Year

## KEEP THAT BACK SHELF CLEAN

Have you noticed your pecan leaves being bunched or clustered in appearance near tips of twigs? Many Coffee County folks have pecans which are infected with rosette which is a nutritional disease of pecans. When it isn't controlled, the twigs die and branches usually die. Consequently, the trees become bare with only dead limbs sticking up. To control this disease use 2 pounds of 36% zinc sulfate per tree each year or 10 pounds every 5 years. Where the disease is severe, use 10 pounds per tree each year for two or three years.

For more information on the price of certain materials and savings and labor and other factors, make it more profitable to use some of the less efficient sources. We will be glad to give further information on this for those who would like to see a report of the experiment.

PEANUT SEEDING RATES  
M. D. Bond, our peanut specialist, called my attention to seeding rates used by 1968 winners in the Alabama Peanut Club. The results showed that none of the growers regardless of the type peanuts planted used the minimum seeding rate. Two-thirds of the farmers in the peanut growing area on lawn mower safety. We exceeded even the maximum rates by 12 pounds per acre. All of this indicates to growers should use the maximum seeding rates. The results according to Bond were 82 pounds for Runners and 112 pounds for Floridians. How many pounds are you using per acre?

BEEF CALF SHOWS  
The 33rd annual Coffee County 4-H Club Beef Calf Show is scheduled for Friday night, April 25, at Hager Field in Enterprise. Dan Presley, who heads up 4-H Club work in the county, reports that he will have some top quality steers in this show. I saw Gary Bowman's two Aberdeen-Angus steers a few days ago. They certainly are beautiful animals. Tommy Stinson, who lives only a couple of miles

from Gary has two Hereford steers that are making excellent progress also. Some of the others feeding steers for the show are Susan Taylor, Dale Harrison, Danny Ezell, Allen Weeks, Carl Sanders, Payche Patterson, George Rogers, Glenn Rogers, Martha Rogers, Ginger Wise, John Barley and Danny Lewis. These boys and girls are looking forward also to entering the district show in Dothan at the Farm Center, Tuesday, April 29, three years.

BEAUTIFICATION  
I don't want the city folks in Elba, Enterprise, Kinston, and New Brockton to out-do the rural people in county in making this country more beautiful. Those of you who have been around the courthouse in Enterprise the last few days know that it has been landscaped and with pretty plants and trees. In fact, some of our cities are making real progress in doing several things which will make them more attractive.

But when you really think about it, the neater farm places look, the safer they are and the more valuable they are not to say anything about pride of ownership. You might want to sit down sometime with the appearance of your place but just haven't done it.

Respectfully yours,  
Lucia Stephens  
Reporter

Victoria 4-H Meets With Mrs. Boutwell  
The meeting of the Victoria 4-H Club was held on March 21st at Mrs. Boutwell's home at 6:30. The meeting was called to order by Linda Hale. After a song led by Dabra Boutwell we had the devotion given by Joan Wise. The pledges of the American Flag and the 4-H flag were given. The minutes were read and approved. Eleven members were present. Joan Wise gave a demonstration on "Selecting Your Fabric." The meeting was adjourned until April 25, 1969.

Where the disease is severe, use 10 pounds per tree each year for two or three years.

NITROGEN FOR COASTAL BERMUDA  
According to some recent research from Dr. E. M. Evans of the Department of Agronomy and Soils of Auburn, the source and forms of nitrogen applied to Coastal Bermuda grass does make a difference. In tests conducted over a five-year period using nitrate of soda, ammonium nitrate, ammonium sulfate and urea, those used at the rate of 100 pounds of nitrogen per acre gave the greatest yield. Costs were not stated in this five-year experiment.

For more information on the price of certain materials and savings and labor and other factors, make it more profitable to use some of the less efficient sources. We will be glad to give further information on this for those who would like to see a report of the experiment.

NITROGEN FOR COASTAL BERMUDA  
According to some recent research from Dr. E. M. Evans of the Department of Agronomy and Soils of Auburn, the source and forms of nitrogen applied to Coastal Bermuda grass does make a difference. In tests conducted over a five-year period using nitrate of soda, ammonium nitrate, ammonium sulfate and urea, those used at the rate of 100 pounds of nitrogen per acre gave the greatest yield. Costs were not stated in this five-year experiment.

For more information on the price of certain materials and savings and labor and other factors, make it more profitable to use some of the less efficient sources. We will be glad to give further information on this for those who would like to see a report of the experiment.

PEANUT SEEDING RATES  
M. D. Bond, our peanut specialist, called my attention to seeding rates used by 1968 winners in the Alabama Peanut Club. The results showed that none of the growers regardless of the type peanuts planted used the minimum seeding rate. Two-thirds of the farmers in the peanut growing area on lawn mower safety. We exceeded even the maximum rates by 12 pounds per acre. All of this indicates to growers should use the maximum seeding rates. The results according to Bond were 82 pounds for Runners and 112 pounds for Floridians. How many pounds are you using per acre?

BEEF CALF SHOWS  
The 33rd annual Coffee County 4-H Club Beef Calf Show is scheduled for Friday night, April 25, at Hager Field in Enterprise. Dan Presley, who heads up 4-H Club work in the county, reports that he will have some top quality steers in this show. I saw Gary Bowman's two Aberdeen-Angus steers a few days ago. They certainly are beautiful animals. Tommy Stinson, who lives only a couple of miles

from Gary has two Hereford steers that are making excellent progress also. Some of the others feeding steers for the show are Susan Taylor, Dale Harrison, Danny Ezell, Allen Weeks, Carl Sanders, Payche Patterson, George Rogers, Glenn Rogers, Martha Rogers, Ginger Wise, John Barley and Danny Lewis. These boys and girls are looking forward also to entering the district show in Dothan at the Farm Center, Tuesday, April 29, three years.

BEAUTIFICATION  
I don't want the city folks in Elba, Enterprise, Kinston, and New Brockton to out-do the rural people in county in making this country more beautiful. Those of you who have been around the courthouse in Enterprise the last few days know that it has been landscaped and with pretty plants and trees. In fact, some of our cities are making real progress in doing several things which will make them more attractive.

But when you really think about it, the neater farm places look, the safer they are and the more valuable they are not to say anything about pride of ownership. You might want to sit down sometime with the appearance of your place but just haven't done it.

Respectfully yours,  
Lucia Stephens  
Reporter

Victoria 4-H Meets With Mrs. Boutwell  
The meeting of the Victoria 4-H Club was held on March 21st at Mrs. Boutwell's home at 6:30. The meeting was called to order by Linda Hale. After a song led by Dabra Boutwell we had the devotion given by Joan Wise. The pledges of the American Flag and the 4-H flag were given. The minutes were read and approved. Eleven members were present. Joan Wise gave a demonstration on "Selecting Your Fabric." The meeting was adjourned until April 25, 1969.

## all around COFFEE COUNTY

By Tom Canaday, County Extension Chairman

PECAN ROSETTE  
Have you noticed your pecan leaves being bunched or clustered in appearance near tips of twigs? Many Coffee County folks have pecans which are infected with rosette which is a nutritional disease of pecans. When it isn't controlled, the twigs die and branches usually die. Consequently, the trees become bare with only dead limbs sticking up. To control this disease use 2 pounds of 36% zinc sulfate per tree each year or 10 pounds every 5 years. Where the disease is severe, use 10 pounds per tree each year for two or three years.

NITROGEN FOR COASTAL BERMUDA

## all around COFFEE COUNTY

By Tom Canaday, County Extension Chairman

PECAN ROSET

COFFEE  
NEWS & CHAT

FROZEN FOODS

Next time you buy frozen foods from the market, check these suggestions. Be sure you get top quality products.

\*Avoid packages which have "drip" or "ice" on the outside of the package. These may indicate that the contents have thawed and been re-frozen.

\*Choose only solidly frozen packages.

\*Check carefully to see that the container is not damaged.

\*Check contents in cello-wrap packages for discolorations or other signs of freezer burn.

MACE  
Mace is maybe one spice which you are not using in as many ways as you could. Mace, available ground, adds an exotic flavor to pound and yellow cakes and chocolate dishes, and it is excellent for sauces and pies, especially peach and cherry.

WHIPPED CREAM  
Whipped cream - fluffy white piles of it - will hold its shape for an hour or two when you use these simple tricks. Add three tablespoons of unsifted powdered sugar and one-half teaspoon of vanilla to one-half pint of whipping cream in a bowl. Chill the cream mixture to between 35 and 40 degrees before whipping. Bowl and beaters should also be thoroughly chilled.

Whip the cream until it's stiff enough to hold its shape when the beater is lifted. Be careful not to overwhip.

At this stage, the cream will have its original smooth and glossy texture. It can then be put through a pastry tube and will hold its shape for hours and besides, it doesn't soak into your cakes or pudding as ordinary whipped cream sometimes does.

DIP CONTAINERS  
Oftentimes you need extra dip containers. Remember this tip when the lack of a dip container is a problem.

When you need a number of containers to hold different dips for snacks, shape a double square of aluminum foil over a small bowl, trim or flute the edges. Then remove the bowl. Put the foil container in the center of the tray, fill with the dip and surround with crackers and chips.

CLEANING SILVER  
Whether your sterling silver tableware enjoys frequent use or emerges only at special times, it needs to be polished occasionally - before tarnishing appears. Any of today's cream, liquid or paste polishes will do the job.

Polishing makes silver pieces gleam with a warm, reflective luster and helps blend together the network of fine scratches that come with wear. It is this blending that gives old silver what many call the "heirloom look."

Washing may be done in a dishpan with clean, hot, sudsy water, but only a few pieces should be washed at a time to avoid scratching. Rinse in clear water and buff dry each piece with a towel.

An automatic dishwasher may also be used, except for hollow-handled knives. Don't allow dishwasher detergent to spill directly on silver or silver plates as it can leave black specks that only professional buffing will remove.

New silver cleaners and tarnish preventatives will

give them a try.

When not on display or not in use, wrap individual pieces in a tarnish-retarding cloth for storage.

UPHOLSTERED FURNITURE  
Remember those old tags that used to read "Do not remove under penalty of law?" The wording on such labels of upholstered furniture, pillows, mat-

retard tarnish much more than regular polishing, so

resses and the like has been changed. Labels now read, "The consumer may remove the tag."

The original labeling was directed to the seller; too often, however, the consumer did not realize this and would leave the label attached to the piece of furniture.

The new label simply is worded so that the consumer will feel free to re-

move it if she wishes.

It is usually advisable to save labels that list the contents of a product. Write on the label the date and place of purchase.

MEAT INFORMATION

"How to Buy Meat" is the title of the program to be given by Miss Dorothy Overby on April 14. This program, to be held at 7

pm, at the Enterprise State Junior College, is for men as well as homemakers. Do mark this date on your calendar and make your plans to attend now.

LABELS

Don't wait until you get home to read the labels on food you buy. Read them before you put them in the shopping cart so you'll

know what you're buying, won't know which one is the main ingredient. Ingredients are listed on the label in the order of greatest volume. The label which says "meat, beans and potatoes" tells you that meat is the main ingredient. However, I'd like to remind you that the reverse label, "potatoes and meat," means you are buying mainly potatoes. If you don't read the label, you

if you dip the roasting fork in butter before sliding the marsh-mallow on it and hold the fork level while toasting, the marsh-mallows will slip easily off the fork.

## BRAINSTORMS

With Ferrin Cox

Before we get too deep into the world problems there is one thing that must be clarified. The endorsement of Albert Brewer for Governor in this column last week was the opinion of the writer of the column and not necessarily that of this newspaper. I do not like the pronoun "I" and have a habit of using "we" where some people would use "I". This caused discussion about itself is at present noncommittal in this or any other political race. In the future you will see more "I" used and if an occasional "we" slips in remember, it is just me.

Never a week goes by but what "I" try to second guess the readers of the Elba Clipper. This is to be prepared for what someone will complain about. Last week it was expected to be someone who disagreed with the endorsement of Brewer for Governor. But as always, people will fool you. Not one subscriber voiced his or her complaint on this, but several voiced their agreement. The complaints came from the sports fans! The Elba Clipper did not use a lot of useless words in the announcement about the inter-squad football game - only 49 words and a one column head. This was compounded apparently by the fact that I did not attend the game, I won't attempt to explain why no one from this newspaper was present but will add that I do not mean that I am against the church! To the boys who are playing on all Elba teams, I apologize if you think an apology is due and remember, it is the firm opinion of the author of this column that you are receiving some of the best training possible to prepare

you to "meet the world." To the Elba sports fan who will go to the Jamboree in Opp, Friday night, you can start chomping at your bits now because it looks doubtful if I will be there either.

Well you saved the chimney! How many times have you said this to a fireman and laughed? I probably have you beat. Firemen hear this so often that it has long since stopped being funny to them. When they stop a fire before a house is destroyed we think "Oh, it was not much." The people who followed the Elba fire department last week when the fire was at Ed Tucker's house can probably all assure that the Elba department does the job of "saving the chimney" (and a lot of other things) like the well trained volunteers they are. Congratulations are in order for every fireman that stopped his work to fight fire that day.

There will be some feelings hurt before the Alabama Legislature decides on the method of supplying more money for the schools. Already the urban counties want more "local effort" and the rural counties are afraid they will be overtaxed. I don't think anyone should pay a smaller per centage of their income than me and being fair must admit that I should pay the same percentage as others. But this has a catch in it you may notice. Percentage is the word - in Birmingham the average buying income is higher than in Coffee County - \$7562 per household in Jefferson and only \$6574 in Coffee County and Jefferson has almost 43,000 more household than Coffee. We must remember that Elba people do help keep Birmingham businesses operating, retail and wholesale.

At the University of Alabama, the newspaper, Crimson-White, has quoted a student exactly as he talked - vulgar words and all. It is easy for us to look over this type thing as some one else's problem but it is high time the average person spoke out against such actions. Actually the student was not even worthy of being quoted! This is verified by the fact, he called the University trustees "ignoramuses." Circuit Judge Eris Paul of Elba is one of those so called "ignoramuses!"

## Built-in Wage Hikes in 1969 Hit 12-Year High, Says BNA Study

The median wage increase falling due in 1969 under contracts now in force is 3.44 cents an hour, according to a study just released by The Bureau of National Affairs, Inc. (BNA), a Washington-based organization of business information specialists. The increase is the highest in the twelve years BNA has been compiling data on wage increase data, and represents a gain of 3.2 cents over increases falling due in 1968.

BNA notes that the year-to-year gain of 3.2 cents in the amount of deferred wage increases is also a new high, and compares with 2.4 cents in 1968 and 1.0 cent in 1967. The BNA study covers 3,665 contracts providing deferred wage or fringe adjustments, compared with 3,075 such contracts examined a year ago. Each contract covers 50 or more employees.

## Pact Limits Steel Imports

Steel imports, into the United States over the next three years, are being limited by international agreement, according to House Ways and Means Committee Chairman Wilbur Mills (D-Ark.) and Senate Finance Committee Chairman Russell Long (D-La.) who made a joint statement.
